

**PRODUCT INFORMATION**

**CANVAS WELDING CURTAINS**

**DESCRIPTION**

Traditional flame retardant material for use as welding screens or covers. Available in 6ft x 4ft, 6ft x 6ft and 6ft x 8ft.

The green canvas material is opaque and offers complete protection from harmful UV and IR rays which can cause 'arc eye' and also from sparks and spatter from the weld.

These curtains are finished with hems on each side and eyelets along the top and bottom and are fully ready to be mounted to a frame or curtain pole.

Waterproof and rot-proof. Flame retardant to BS 5438.

Curtains sold separately. Curtain Rings sold separately. Does not include Frame.

**ARTICLES & ACCESSORIES**
