Revision: 20

Supersedes date: 25/04/2017

SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1. Product identifier Product name TITANIUM PUTTY (Ti) RESIN. Product number X0007 1.2. Relevant identified uses of the substance or mixture and uses advised against Identified uses Resin. 1.3. Details of the supplier of the safety data sheet Supplier **ITW Performance Polymers** Bay 150 Shannon Industrial Estate Co. Clare Ireland V14 DF82 353(61)771500 353(61)471285 mail@itwpp.com 1.4. Emergency telephone number **Emergency telephone** +44(0)1235 239 670 (24h) **SECTION 2: Hazards identification** 2.1. Classification of the substance or mixture Classification (EC 1272/2008) Physical hazards Not Classified Health hazards Skin Irrit. 2 - H315 Eye Irrit. 2 - H319 Skin Sens. 1 - H317 Environmental hazards Aquatic Chronic 2 - H411 Human health The product contains an epoxy resin. May cause sensitisation or allergic reactions in sensitive individuals. 2.2. Label elements Pictogram

Signal word

Warning

Hazard statements	H315 Causes skin irritation. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H411 Toxic to aquatic life with long lasting effects.
Precautionary statements	 P273 Avoid release to the environment. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P302+P352 IF ON SKIN: Wash with plenty of water. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P333+P313 If skin irritation or rash occurs: Get medical advice/ attention.
Supplemental label information	EUH205 Contains epoxy constituents. May produce an allergic reaction.
Contains	EPOXY RESIN (Number average MW <= 700)
Supplementary precautionary statements	 P261 Avoid breathing vapour/ spray. P264 Wash contaminated skin thoroughly after handling. P272 Contaminated work clothing should not be allowed out of the workplace. P321 Specific treatment (see medical advice on this label). P332+P313 If skin irritation occurs: Get medical advice/ attention. P337+P313 If eye irritation persists: Get medical advice/ attention. P362+P364 Take off contaminated clothing and wash it before reuse. P391 Collect spillage. P501 Dispose of contents/ container in accordance with national regulations.

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.2. Mixtures		
EPOXY RESIN (Number average	MW <= 700)	10-30%
CAS number: 25068-38-6	EC number: 500-033-5	REACH registration number: 01- 2119456619-26-0000
Classification		
Skin Irrit. 2 - H315		
Eye Irrit. 2 - H319		
Skin Sens. 1 - H317		
Aquatic Chronic 2 - H411		

The full text for all hazard statements is displayed in Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

General information	Avoid contact with skin and eyes. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
Inhalation	Move affected person to fresh air at once. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention if any discomfort continues.
Ingestion	Rinse mouth thoroughly with water. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention.

Skin contact	Remove affected person from source of contamination. Wash skin thoroughly with soap and water. Get medical attention if irritation persists after washing.
Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention. Get medical attention if irritation persists after washing.
4.2. Most important symptoms	and effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with foam, carbon dioxide or dry powder.
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	Irritating gases or vapours.
5.3. Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapours. Keep up-wind to avoid fumes. Control run-off water by containing and keeping it out of sewers and watercourses.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
SECTION 6: Accidental release	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Avoid contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet. Provide adequate ventilation.
6.2. Environmental precaution	S
Environmental precautions	Avoid the spillage or runoff entering drains, sewers or watercourses. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Absorb spillage with sand or other inert absorbent. Collect and place in suitable waste disposal containers and seal securely. Containers with collected spillage must be properly labelled with correct contents and hazard symbol.
6.4. Reference to other section	ns
Reference to other sections	Wear protective clothing as described in Section 8 of this safety data sheet.
SECTION 7: Handling and sto	rage
7.1. Precautions for safe hand	ling
Usage precautions	Use only in well-ventilated areas. Handle and open container with care. Keep away from heat, sparks and open flame. Do not use in confined spaces without adequate ventilation and/or respirator. Do not eat, drink or smoke when using the product. Good personal hygiene procedures should be implemented.
7.2. Conditions for safe storag	e, including any incompatibilities

Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Store away from incompatible materials (see Section 10).
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure Cont	rols/personal protection
8.1. Control parameters	
Ingredient comments	No exposure limits known for ingredient(s).
	EPOXY RESIN (Number average MW <= 700) (CAS: 25068-38-6)
DNEL	Workers - Dermal; Short term systemic effects: 8.33 mg/kg/day Workers - Inhalation; Short term systemic effects: 12.25 mg/m ³
8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles. Personal protective equipment for eye and face protection should comply with European Standard EN166.
Hand protection	Wear protective gloves made of the following material: Rubber or plastic. To protect hands from chemicals, gloves should comply with European Standard EN374. The selected gloves should have a breakthrough time of at least 8 hours.
Other skin and body protection	Avoid contact with skin. Wear chemical protective suit.
Hygiene measures	Provide eyewash station and safety shower. Keep away from food, drink and animal feeding stuffs. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Do not eat, drink or smoke when using the product. Change work clothing daily before leaving workplace.
Respiratory protection	If ventilation is inadequate, suitable respiratory protection must be worn. Respirator selection must be based on exposure levels, the hazards of the product and the safe working limits of the selected respirator. Check that the respirator fits tightly and the filter is changed regularly. Wear a respirator fitted with the following cartridge: Gas filter, type A2. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN140.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

Appearance	Paste.
Colour	Dark. Grey.
Odour	Slight.

рН	pH (concentrated solution): 7.0 @ 20 °C
Melting point	N/D°C
Initial boiling point and range	>260°C @
Flash point	> 204°C
Evaporation rate	<<1 (butyl acetate =1)
Vapour pressure	0.03mmHg @ °C
Vapour density	>1
Relative density	2.5 @ @ 20 °C°C
Solubility(ies)	Slightly soluble in water.
Auto-ignition temperature	>300°C
9.2. Other information	
Other information	Not available.
SECTION 10: Stability and rea	activity
10.1. Reactivity	
Reactivity	Acids. Amines. Strong oxidising agents.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	Not available.
10.4. Conditions to avoid	
Conditions to avoid	Avoid heat, flames and other sources of ignition. Avoid excessive heat for prolonged periods of time. Avoid exposure to high temperatures or direct sunlight.
10.5. Incompatible materials	
Materials to avoid	Avoid contact with the following materials: Strong oxidising agents. Strong acids. Amines.
10.6. Hazardous decompositio	on products
Hazardous decomposition products	Oxides of carbon. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Vapours/gases/fumes of: Acids - organic. Aldehydes.
SECTION 11: Toxicological in	formation
11.1. Information on toxicologi	ical effects
Inhalation	No significant hazard at normal ambient temperatures. Heating may generate the following products: Irritating gases or vapours.
Ingestion	Irritating. Symptoms following overexposure may include the following: Nausea, vomiting. Stomach pain.
Skin contact	Irritating to skin. May cause sensitisation by skin contact. The product contains a small amount of sensitising substance. May cause sensitisation or allergic reactions in sensitive individuals.
Eye contact	Irritating to eyes.

Acute and chronic health hazards	The product contains an epoxy resin. May cause sensitisation or allergic reactions in sensitive individuals.
SECTION 12: Ecological Inform	nation
Ecotoxicity	Avoid release to the environment. The product contains substances which are toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.
12.1. Toxicity	
Toxicity	Very toxic to aquatic organisms.
12.2. Persistence and degrada	bility
Persistence and degradability	There are no data on the degradability of this product.
12.3. Bioaccumulative potentia	<u>u</u>
Bioaccumulative potential	No data available on bioaccumulation.
12.4. Mobility in soil	
Mobility	Avoid or minimise the creation of any environmental contamination. Do not discharge into drains or watercourses or onto the ground.
12.5. Results of PBT and vPvE	3 assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	Not available.
SECTION 13: Disposal consid	erations
13.1. Waste treatment method

ECTION 4: First aid measures	The full text for all hazard statements i	s displayed in Section 16.		
	SECTION 4: First aid measures			

4.1. Description of first aid measures

General information	Avoid contact with skin and eyes. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
Inhalation	Move affected person to fresh air at once. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention if any discomfort continues.
Ingestion	Rinse mouth thoroughly with water. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention.

Skin contact	Remove affected person from source of contamination. Wash skin thoroughly with soap and water. Get medical attention if irritation persists after washing.
Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention. Get medical attention if irritation persists after washing.
4.2. Most important symptoms	and effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
4.3. Indication of any immedia	te medical attention and special treatment needed
Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
SECTION 5: Firefighting meas	sures
5.1. Extinguishing media	
Suitable extinguishing media	Extinguish with foam, carbon dioxide or dry powder.
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	Irritating gases or vapours.
5.3. Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapours. Keep up-wind to avoid fumes. Do not use water jet as an extinguisher, as this will spread the fire. Control run-off water by containing and keeping it out of sewers and watercourses.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.
SECTION 6: Accidental releas	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Provide adequate ventilation. Use suitable respiratory protection if ventilation is inadequate. No smoking, sparks, flames or other sources of ignition near spillage. Avoid contact with skin and eyes.
6.2. Environmental precaution	<u>S</u>
Environmental precautions	Avoid or minimise the creation of any environmental contamination. Do not discharge into drains or watercourses or onto the ground. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.
6.3. Methods and material for	containment and cleaning up
Methods for cleaning up	Absorb spillage with sand or other inert absorbent. Collect and place in suitable waste disposal containers and seal securely. Containers with collected spillage must be properly labelled with correct contents and hazard symbol.
6.4. Reference to other section	15
Reference to other sections	Wear protective clothing as described in Section 8 of this safety data sheet.
SECTION 7: Handling and sto	rage
7.1. Precautions for safe hand	ling

Usage precautions	Use only in well-ventilated areas. Handle and open container with care. Keep away from heat, sparks and open flame. Do not eat, drink or smoke when using the product. Do not use in confined spaces without adequate ventilation and/or respirator. Good personal hygiene procedures should be implemented.
7.2. Conditions for safe storage	e, including any incompatibilities
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Store away from incompatible materials (see Section 10).
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure Control	s/personal protection
8.1. Control parameters Occupational exposure limits PHENOL	
Long-term exposure limit (8-ho Short-term exposure limit (15-r	
TITANIUM DIOXIDE	
Long-term exposure limit (8-ho WEL = Workplace Exposure Li	
Ingredient comments	WEL = Workplace Exposure Limits
	TRIETHYLENETETRAMINE (CAS: 112-24-3)
DNEL	Workers - Inhalation; Long term systemic effects: 1 mg/m³ Workers - Inhalation; Short term systemic effects: 5380 mg/m³ Workers - Dermal; Long term systemic effects: 0.57 mg/kg/day
8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles. Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses. Personal protective equipment for eye and face protection should comply with European Standard EN166.
Hand protection	Wear protective gloves made of the following material: Rubber or plastic. It is recommended that gloves are made of the following material: Butyl rubber. To protect hands from chemicals, gloves should comply with European Standard EN374. The selected gloves should have a breakthrough time of at least 8 hours.

Other skin and body protection

Wear apron or protective clothing in case of contact.

Hygiene measures	Provide eyewash station and safety shower. Keep away from food, drink and animal feeding stuffs. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Do not eat, drink or smoke when using the product.
Respiratory protection	If ventilation is inadequate, suitable respiratory protection must be worn. Respirator selection must be based on exposure levels, the hazards of the product and the safe working limits of the selected respirator. Check that the respirator fits tightly and the filter is changed regularly. Wear a respirator fitted with the following cartridge: Gas filter, type A2. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN140.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic phys	9.1. Information on basic physical and chemical properties		
Appearance	Paste.		
Colour	White/off-white.		
Odour	Amine.		
рН	pH (concentrated solution): 9.75 @ 20 °C		
Melting point	n/d°C		
Initial boiling point and range	>177°C @		
Flash point	136°C		
Vapour pressure	<0.01 mmHg @ °C		
Relative density	1.78 @ 20 °C°C		
Solubility(ies)	Slightly soluble in water.		
Viscosity	640-1600 Pa s @ 25°C		
9.2. Other information			
Other information	Not available.		
SECTION 10: Stability and reactivity			
SECTION 10: Stability and rea	activity		
SECTION 10: Stability and rea 10.1. Reactivity	activity		
	Acids. Strong oxidising agents.		
10.1. Reactivity			
10.1. Reactivity Reactivity			
10.1. Reactivity Reactivity 10.2. Chemical stability	Acids. Strong oxidising agents. Stable at normal ambient temperatures and when used as recommended.		
10.1. Reactivity Reactivity 10.2. Chemical stability Stability	Acids. Strong oxidising agents. Stable at normal ambient temperatures and when used as recommended.

10.1. ReactivityReactivity10.2. Chemical stabilityStability10.3. Possibility of hazardousPossibility of hazardousreactions10.4. Conditions to avoid	Acids. Strong oxidising agents. Stable at normal ambient temperatures and when used as recommended. <u>reactions</u> Not available. Avoid heat, flames and other sources of ignition. Avoid excessive heat for prolonged periods		
10.1. Reactivity Reactivity 10.2. Chemical stability Stability 10.3. Possibility of hazardous Possibility of hazardous reactions 10.4. Conditions to avoid Conditions to avoid	Acids. Strong oxidising agents. Stable at normal ambient temperatures and when used as recommended. <u>reactions</u> Not available. Avoid heat, flames and other sources of ignition. Avoid excessive heat for prolonged periods		

Hazardous decomposition	Fire or high temperatures create: Nitrous gases (NOx). Oxides of the following substances:
products	Carbon monoxide (CO). Carbon dioxide (CO2). Vapours/gases/fumes of: Ammonia or
	amines.

SECTION 11: Toxicological information		
11.1. Information on toxicological effects		
Acute toxicity - oral		
ATE oral (mg/kg)	1,402.76	
Acute toxicity - dermal		
ATE dermal (mg/kg)	3,391.95	
Acute toxicity - inhalation		
ATE inhalation (gases ppm)	11,312.22	
ATE inhalation (vapours mg/l)	48.48	
ATE inhalation (dusts/mists mg/l)	8.08	
Inhalation	Irritating to respiratory system. May cause sensitisation by inhalation.	
Ingestion	Harmful if swallowed.	
Skin contact	Irritating to skin. Harmful in contact with skin. May cause sensitisation by skin contact.	
Eye contact	Irritating to eyes.	
Acute and chronic health hazards	Causes burns.	
Route of entry	Inhalation Skin absorption Ingestion.	
Target organs	Prolonged or repeated exposure may cause the following adverse effects: May cause damage to the liver and kidneys. Respiratory system, lungs Central nervous system	
SECTION 12: Ecological Information		
Ecotoxicity	Avoid release to the environment.	
12.1. Toxicity		
Toxicity	Not considered toxic to fish.	
12.2. Persistence and degradability		

12.3. Bioaccumulative potential

Bioaccumulative potential No data available on bioaccumulation.

12.4. Mobility in soil

Mobility

Do not discharge into drains or watercourses or onto the ground.

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB This product does not contain any substances classified as PBT or vPvB. assessment

12.6. Other adverse effects

Other adverse effects	Not available.	
SECTION 13: Disposal considerations		
13.1. Waste treatment method	<u>s</u>	
General information	When handling waste, the safety precautions applying to handling of the product should be considered.	
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.	
Waste class	08 04 99	
SECTION 14: Transport inform	nation	
General	No other information known.	
14.1. UN number		
UN No. (ADR/RID)	1760	
UN No. (IMDG)	1760	
UN No. (ICAO)	1760	
14.2. UN proper shipping name	8	
Proper shipping name (ADR/RID)	CORROSIVE LIQUID, N.O.S. (TRIETHYLENETETRAMINE, 1-METHYLIMIDAZOLE)	
Proper shipping name (IMDG)	CORROSIVE LIQUID, N.O.S. (TRIETHYLENETETRAMINE, 1-METHYLIMIDAZOLE)	
Proper shipping name (ICAO)	CORROSIVE LIQUID, N.O.S. (TRIETHYLENETETRAMINE, 1-METHYLIMIDAZOLE)	
Proper shipping name (ADN)	CORROSIVE LIQUID, N.O.S. (TRIETHYLENETETRAMINE, 1-METHYLIMIDAZOLE)	
14.3. Transport hazard class(e	us)	
ADR/RID class	8	
ADR/RID label	8	
IMDG class	8	
ICAO class/division	8	
Transport labels		
14.4. Packing group		
ADR/RID packing group	III	
IMDG packing group	III	
ICAO packing group	III	
14.5. Environmental hazards		
Environmentally hazardous substance/marine pollutant		

No.

14.6. Special precautions for user

EmS	F-A, S-B	
Emergency Action Code	2X	
Hazard Identification Number (ADR/RID)	80	
Tunnel restriction code	(E)	
14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code		
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	No information required.	
SECTION 15: Regulatory information		

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information	
Revision date	04/04/2018
Revision	19
Supersedes date	25/04/2017
Hazard statements in full	 H301 Toxic if swallowed. H302 Harmful if swallowed. H311 Toxic in contact with skin. H312 Harmful in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H331 Toxic if inhaled. H332 Harmful if inhaled. H341 Suspected of causing genetic defects. H351 Suspected of causing cancer. H373 May cause damage to organs through prolonged or repeated exposure. H412 Harmful to aquatic life with long lasting effects.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
