

PRODUCT INFORMATION

50MM ROUND FLIP-FRONT GOGGLE

DESCRIPTION

Our most popular model of shaded goggle, for use in oxy/fuel welding. This flip-up style lens holder includes clear and shade 5 50mm round lenses.

DS1002

INFORMATION

50mm (2") diameter round lens flip-front gas welding goggles, fitted with 5GW filter lens.

These goggles are CE Approved and meet the requirements of European Norm EN166.

NOTES

Goggles are shipped as standard, fitted with glass filter lenses. A range of replacement lenses in a variety of shades is available.

Product is recommended for gas welding applications.
