SifVac Industrial Vacuum

CE
Approved

Compact, Industrial Dry Vacuum Cleaner

Effective cleaning & dust removal

for industry

1
Phase

Single
Phase

*Single phase
by-pass motor*

*Two single phase
by-pass motors*

*Single phase
brushless turbine
motor head*

**3 head
options**

**2 detachable container
size options**

M-class cartridge filter

**15ltr detachable
container.**

**20ltr detachable
container.**

*Choose between a single or 'branch' connector
to run two hoses.*

The SifVac high-vacuum industrial system can deliver multiple forms of mobile extraction, including on-torch. It is an ideal modular unit that can be modified or purpose-built for specific applications to support the extraction of fumes and dust directly from the point of origin.

When used in combination with the SifGun Fume Extraction MIG Torch, the extraction of MIG welding fumes and filtration of particles maximises the safety of the operator by eliminating fumes at source and before they enter the breathing zone.

Multiple configurations are available including a twin motor option for double operation and a brushless turbine motor for a continuous-rated, maintenance-free solution. **Main features include** an M-class filter with high-filtration efficiency and choice of a 15L or 20L detachable dust collection chamber. The 'Dust Stop' semi-automatic cleaning system allows the operator to clean the filter with ease, by simply lifting the flap on the chamber and all models include castors for easy manoeuvrability. **110v or 230v Units** are available and the optional HD Brush Kit means the SifVac can also be used as a vacuum cleaner.

Main features

- 110 or 230v availability
- Suction powered by a powerful single phase motor
- Multiple configurations available including a twin motor unit for double operation
- Metal Pre-filter stops sparks
- Integrated filter cleaning system
- Automatic Stop/Start available
- Choice of 15 or 20 litre detachable dust collection chamber with handle
- All models feature an M-class filter for high filtration efficiency
- Castors for easy manoeuvrability
- Optional vacuum brush kit

PACKAGE 2 – TWIN MOTOR HEAD WITH 15LTR BODY

Features

- Two single phase by-pass motors
- 360m³/h maximum airflow
- 2500 mmH₂O maximum depression
- Cartridge filter
- Metal pre-filter to stop sparks
- Automatic start / stop
- Dustop filter cleaning system
- 15ltr detachable dust collection chamber with handle
- Castors for easy manoeuvrability

PACKAGE 1 – SINGLE MOTOR HEAD WITH 15LTR BODY

Features

- Single phase by-pass motor
- 180m³/h maximum airflow
- 2500 mmH₂O maximum depression
- Cartridge filter
- Metal pre-filter to stop sparks
- Automatic start / stop
- Dustop filter cleaning system
- 15ltr detachable dust collection chamber with handle
- Castors for easy manoeuvrability

PACKAGE 3 – BRUSHLESS TURBINE MOTOR HEAD WITH 15LTR BODY

Features

- Single phase brushless turbine motor head
- 250 m³/h maximum airflow
- 2300 mmH₂O maximum depression
- Cartridge filter
- Metal pre-filter to stop sparks
- Dustop filter cleaning system
- 15ltr detachable dust collection chamber with handle
- Castors for easy manoeuvrability

Package ordering information

Description	110V	230V
Package 1 - Single motor head with 15ltr body	EXTSVAC110S15	EXTSVAC230S15
Package 2 - Twin motor head with 15ltr body	EXTSVAC110T15	EXTSVAC230T15
Package 3 - Brushless turbine motor head with 15ltr body	EXTSVAC110C15	EXTSVAC230C15

• *All variations are available with a 20ltr detachable dust collection chamber*

Additional options & spares

Extractability

Description	Part Number
HD Vacuum Brush Kit	EXTSVAC01
Branch Connector + Airflow Reg	EXTSVAC02
Cartridge Filter	EXTSVAC03
Replacement Seal	EXTSVAC04
Washable Spark Filter	EXTSVAC05
110v 1000W Bypass Motor	EXTSVAC07
230v 1000W Bypass Motor	EXTSVAC08
Spark Latch 400mm diameter	EXTSVAC09
Funnel Nozzle 45mm	EXT96317
Slit Nozzle 45mm	EXT96318
Round Nozzle 45mm	EXT963171
15m High Vacuum Hose 32mm	EXTSUPERTRACK32
15m High Vacuum Hose 38mm	EXTSUPERTRACK38
Coupling Sleeve 32mm	EXT01032
Coupling Sleeve 38mm	EXT01038
Hitachi 5" Grinding Attachment 125mm	EXT046200
Makita 5" Grinding Attachment 125mm	EXT046201
Bosch 5" Grinding Attachment 125mm	EXT046203
