

Hand Operated Spot Gun 2.5 kVA

Now Supplied with Case and Accessory Kit
125mm, 500mm arms, and pair of cranked electrodes

Key Features

- Input Voltage 230V - 16Amp
- Versatile portable spot welder for auto body repair shops and maintenance shops
- Synchronous built-in electronic timer with SCR from 2 to 65 cycles
- Compensation circuit starts the timer only when there is a proper passage of current which enables to perform on oxidised sheets, on surfaces with paint residues or on black sheets
- Current control with phase shift adjustment to carry out difficult welds, on very thin thickness, on rods with reduced diameter, on stainless steel sheet and similar
- Additional arm couplings to provide larger opening between arms
- All transformers are coated with F class insulation material
- Force adjustment with scale in daN
- Supplied complete with 125mm arms
- Large choice of arms and electrodes
- Pulsation weld time control
- Cos fi control
