

## GBC22 ZERO

### Portable Plate bevelling machine

**Functions:** bevelling & facing

**Bevel Angle:** from 0° to 60°

**Max Bevel Width:** 22mm

**Materials:** Any type of steel and aluminium

**Power:** 110V / 230V / 400V

The **GBC22 ZERO** is an easy to use, portable machine designed for bevelling and/or facing steel plates prior to welding.

It is fitted with a high speed milling head holding ten indexable carbide inserts for smooth and efficient bevelling.

It is user friendly with a compact ergonomically designed frame.

TECHNICAL SPECIFICATION	
Power supply	1,1 KW, 110v -230v-400v
Motor speed	2.850 rpm
Tooling	10 square inserts
Standard angles range	0°-60°
Dimensions	442 x 381 x 318 mm
Weight	20 kg

Part No.	Model	Voltage
29200	GBC220/400	3 ph 400V
29220	GBC220/230	1 ph 230V
29221	GBC220/120	1 ph 120V
<b>Accessories</b>		
29203	Standard cutting inserts (pack of 10 pcs)	
29205	Premium cutting inserts (pack of 10 pcs)	
29206	Additional adjustable handle	
29200.9300	Screw for the inserts
